Background

- ▶ We have twice had violations concerning transmission of microdata

Background

- ▶ We have twice had violations concerning transmission of microdata
- ▶ We once have had violations concerning non-authorized transmission of non-data

Background

- ▶ We have twice had violations concerning transmission of microdata
- ▶ We once have had violations concerning non-authorized transmission of non-data
- ▶ We have a number of times had violations of table-data restrictions

Background

- ▶ We have twice had violations concerning transmission of microdata
- ▶ We once have had violations concerning non-authorized transmission of non-data
- ▶ We have a number of times had violations of table-data restrictions

Background

- ▶ We have twice had violations concerning transmission of microdata
- ▶ We once have had violations concerning non-authorized transmission of non-data
- ▶ We have a number of times had violations of table-data restrictions

Therefore this reminder of good behaviour when using DST servers

Background

- ▶ We have twice had violations concerning transmission of microdata
- ▶ We once have had violations concerning non-authorized transmission of non-data
- ▶ We have a number of times had violations of table-data restrictions

Therefore this reminder of good behaviour when using DST servers

This does **not** replace the guidelines available at the DST website —links are in the note you got by mail Friday 17, at 17:49

Rules for data: microdata

- ▶ Microdata: One person in each line of data

Rules for data: microdata

- ▶ Microdata: One person in each line of data
- ▶ Microdata: A value for a single person
⇒ accurate `min` and `max` may be microdata
Can be transferred if no risk of identifying individuals.

Rules for data: microdata

- ▶ Microdata: One person in each line of data
- ▶ Microdata: A value for a single person
⇒ accurate `min` and `max` may be microdata
Can be transferred if no risk of identifying individuals.
- ▶ You can **look** at microdata on the screen

Rules for data: microdata

- ▶ Microdata: One person in each line of data
- ▶ Microdata: A value for a single person
⇒ accurate `min` and `max` may be microdata
Can be transferred if no risk of identifying individuals.
- ▶ You can **look** at microdata on the screen
- ▶ You must **never** transmit microdata out of DST servers

Rules for data: microdata

- ▶ Microdata: One person in each line of data
- ▶ Microdata: A value for a single person
⇒ accurate `min` and `max` may be microdata
Can be transferred if no risk of identifying individuals.
- ▶ You can **look** at microdata on the screen
- ▶ You must **never** transmit microdata out of DST servers
- ▶ If in doubt, contact the person in charge of your project (or Bendix Carstensen)

Rules for data: summaries

- ▶ You can transmit analysis results such as summaries and tables

Rules for data: summaries

- ▶ You can transmit analysis results such as summaries and tables
- ▶ No table entries < 3 are allowed.

Must not be deductible either; for example this is disallowed:

M	W	Total
*	5	7

... because we can infer that the M entry is 2.

Rules for data: summaries

- ▶ You can transmit analysis results such as summaries and tables
- ▶ No table entries < 3 are allowed.

Must not be deductible either; for example this is disallowed:

M	W	Total
*	5	7

... because we can infer that the M entry is 2.

- ▶ Tables / summaries / results must be transmitted before you can use them in your articles and reports.

Rules for transmission

- ▶ **Only** means of transmission allowed is the mail-home system

Rules for transmission

- ▶ **Only** means of transmission allowed is the mail-home system
- ▶ screenshots **dis**allowed

Rules for transmission

- ▶ **Only** means of transmission allowed is the mail-home system
- ▶ screenshots **dis**allowed
- ▶ photo of screen **dis**allowed

Rules for transmission

- ▶ **Only** means of transmission allowed is the mail-home system
- ▶ screenshots **dis**allowed
- ▶ photo of screen **dis**allowed
- ▶ manual copy from screen **dis**allowed
... this is like a photo with a very bad camera

Rules for transmission

- ▶ **Only** means of transmission allowed is the mail-home system
- ▶ screenshots **dis**allowed
- ▶ photo of screen **dis**allowed
- ▶ manual copy from screen **dis**allowed
... this is like a photo with a very bad camera
- ▶ these 3 apply to **all** types of data

Rules for transmission

- ▶ **Only** means of transmission allowed is the mail-home system
- ▶ screenshots **dis**allowed
- ▶ photo of screen **dis**allowed
- ▶ manual copy from screen **dis**allowed
... this is like a photo with a very bad camera
- ▶ these 3 apply to **all** types of data
- ▶ sharing of screen when logged on DST is **dis**allowed

Rules for transmission

- ▶ **Only** means of transmission allowed is the mail-home system
- ▶ screenshots **dis**allowed
- ▶ photo of screen **dis**allowed
- ▶ manual copy from screen **dis**allowed
... this is like a photo with a very bad camera
- ▶ these 3 apply to **all** types of data
- ▶ sharing of screen when logged on DST is **dis**allowed

Rules for transmission

- ▶ **Only** means of transmission allowed is the mail-home system
- ▶ screenshots **dis**allowed
- ▶ photo of screen **dis**allowed
- ▶ manual copy from screen **dis**allowed
... this is like a photo with a very bad camera
- ▶ these 3 apply to **all** types of data
- ▶ sharing of screen when logged on DST is **dis**allowed

⇒ You can **only** use results in articles and reports that you have sent over the mail-home system

Rules for transmission

- ▶ **Only** means of transmission allowed is the mail-home system
- ▶ screenshots **dis**allowed
- ▶ photo of screen **dis**allowed
- ▶ manual copy from screen **dis**allowed
... this is like a photo with a very bad camera
- ▶ these 3 apply to **all** types of data
- ▶ sharing of screen when logged on DST is **dis**allowed

⇒ You can **only** use results in articles and reports that you have sent over the mail-home system

DST must be able to check that only compliant data is transmitted.

Why the rules

- ▶ Preserve anonymity of persons (and business entities)

Side effects of the rules (advice)

- ▶ Groom your code so it is readable for yourself

Side effects of the rules (advice)

- ▶ Groom your code so it is readable for yourself
- ▶ Comment your code, describing what you do and why

Side effects of the rules (advice)

- ▶ Groom your code so it is readable for yourself
- ▶ Comment your code, describing what you do and why
- ▶ Describe the results

Side effects of the rules (advice)

- ▶ Groom your code so it is readable for yourself
- ▶ Comment your code, describing what you do and why
- ▶ Describe the results
- ▶ Results must be from the program, not read off the screen and put in comments—there will be no guarantee that the data in comments is not accidentally microdata

Side effects of the rules (advice)

- ▶ Groom your code so it is readable for yourself
- ▶ Comment your code, describing what you do and why
- ▶ Describe the results
- ▶ Results must be from the program, not read off the screen and put in comments—there will be no guarantee that the data in comments is not accidentally microdata
- ▶ Revise, revise, revise till it is readable and gives only the results/summaries you need

Side effects of the rules (advice)

- ▶ Groom your code so it is readable for yourself
- ▶ Comment your code, describing what you do and why
- ▶ Describe the results
- ▶ Results must be from the program, not read off the screen and put in comments—there will be no guarantee that the data in comments is not accidentally microdata
- ▶ Revise, revise, revise till it is readable and gives only the results/summaries you need
- ▶ This will also minimize the risk of accidental microdata transfer

What if I violate rules?

1. If you violate a rule, contact the person in charge of your project.

What if I violate rules?

IMMEDIATELY contact the person in charge of your project.

What if I violate rules?

IMMEDIATELY contact the person in charge of your project.

- ▶ DST must be notified at once by the person responsible for the project

What if I violate rules?

IMMEDIATELY contact the person in charge of your project.

- ▶ DST must be notified at once by the person responsible for the project
- ▶ copy to Birgitte Brock

What if I violate rules?

IMMEDIATELY contact the person in charge of your project.

- ▶ DST must be notified at once by the person responsible for the project
- ▶ copy to Birgitte Brock
- ▶ further advice at Else Ibfelt, Bendix Carstensen

What if I violate rules?

IMMEDIATELY contact the person in charge of your project.

- ▶ DST must be notified at once by the person responsible for the project
- ▶ copy to Birgitte Brock
- ▶ further advice at Else Ibfelt, Bendix Carstensen
- ▶ DST will ask for a description of the incident and the measures we will take to avoid further incidents

Summary

- ▶ Microdata: one line of data per person can **NEVER** be transmitted

Summary

- ▶ Microdata: one line of data per person can **NEVER** be transmitted
- ▶ Tables: No entries < 3 can be transmitted **ONLY** transmission via DST mail-home system

Summary

- ▶ Microdata: one line of data per person can **NEVER** be transmitted
- ▶ Tables: No entries < 3 can be transmitted **ONLY** transmission via DST mail-home system
- ▶ Analysis results can be transmitted if no person or business entity can be identified **ONLY** transmission via DST mail-home system

Summary

- ▶ Microdata: one line of data per person can **NEVER** be transmitted
- ▶ Tables: No entries < 3 can be transmitted **ONLY** transmission via DST mail-home system
- ▶ Analysis results can be transmitted if no person or business entity can be identified **ONLY** transmission via DST mail-home system
- ▶ **NO** transmission of anything outside the DST mail-home system, be that digital, analog or manual.

Summary

- ▶ Microdata: one line of data per person can **NEVER** be transmitted
- ▶ Tables: No entries < 3 can be transmitted **ONLY** transmission via DST mail-home system
- ▶ Analysis results can be transmitted if no person or business entity can be identified **ONLY** transmission via DST mail-home system
- ▶ **NO** transmission of anything outside the DST mail-home system, be that digital, analog or manual.
- ▶ **RESULTS** for your papers must be in a file that you have sent, complying with the rules
